# **JURISDICTION**

- 3. This Accusation is brought before the Board, under the authority of the following laws. All section references are to the Business and Professions Code unless otherwise indicated.
- Section 2227 of the Code provides, in part, that a licensee who is found guilty under the Medical Practice Act may have his or her license revoked, suspended for a period not to exceed one year, placed on probation and required to pay the costs of probation monitoring, be publicly reprimanded, or such other action taken in relation to discipline as the Board deems proper.
- 5. Section 2234 of the Code provides that the Board shall take action against a licensee who is charged with unprofessional conduct.
  - 6. Section 2305 of the Code states:

"The revocation, suspension, or other discipline, restriction or limitation imposed by another state upon a license or certificate to practice medicine issued by that state, or the revocation, suspension, or restriction of the authority to practice medicine by any agency of the federal government, that would have been grounds for discipline in California of a licensee under this chapter shall constitute grounds for disciplinary action for unprofessional conduct against the licensee in this state."

- Section 141 of the Code states:
- "(a) For any licensee holding a license issued by a board under the jurisdiction of the department, a disciplinary action taken by another state, by any agency of the federal government, or by another country for any act substantially related to the practice regulated by the California license, may be a ground for disciplinary action by the respective state licensing board. A certified copy of the record of the disciplinary action taken against the licensee by another state, an agency of the federal government, or another country shall be conclusive evidence of the events related therein.

"(b) Nothing in this section shall preclude a board from applying a specific statutory provision in the licensing act administered by that board that provides for discipline based upon disciplinary action taken against the licensee by another state, an agency of the federal government, or another country."

### **CAUSE FOR DISCIPLINE**

# (Discipline, Restriction, or Limitation Imposed by Another State)

- 8. On or about November 30, 2018, the Nevada State Board of Medical Examiners issued a Settlement Agreement (Nevada Order). The Nevada Order found that Respondent's Nevada medical license was subject to discipline because Respondent: (1) violated Nevada Pharmacy Board regulations; (2) self-prescribed appetite suppressants in a manner that violated the standards for the prescription of appetite suppressants and the Dietary Guidelines; (3) failed to maintain complete medical records relating to the diagnosis, treatment, and care of himself; and (4) failed to maintain complete medical records relating to the diagnosis, treatment, and care of patients to whom Respondent and Respondent's physician assistants dispensed and prescribed controlled substances and dangerous drugs.
- 9. Specifically, with regard to Respondent's violation of Nevada Pharmacy Board regulations, the facts are as follows:

"On December 9, 2013, the Nevada Pharmacy Board granted Respondent an account for internet access to the Nevada Prescription Monitoring Program (PMP) for purposes authorized under federal and state law. Before receiving access, Respondent signed a Practitioner Certification Statement stating that he understood and agreed under penalty of perjury that he was responsible for all patient information transmitted from his account, that he would treat PMP information as confidential, that he would protect any PMP information in his possession or control in accordance with federal and state laws governing health care information, and that he would safeguard his password and not share his login credentials with any other person.

<sup>&</sup>lt;sup>1</sup> The facts in paragraph 9 are derived from the Nevada State Board of Medical Examiner's Complaint dated October 17, 2018 at pages 2-4, and 7. The Nevada State Board Complaint is attached as Exhibit A.

` 15

Stephen Paddock (Paddock) was the perpetrator of the October 1, 2017 Las Vegas mass shooting, and committed suicide immediately after the incident, sometime before midnight.

On or about October 2, 2017, Respondent verified through his office electronic medical records system (EMR) that Paddock was never his patient. From October 2, 2017, at 9:25 a.m. to October 3, 2017, at 2:20 p.m., Respondent's PMP account was used to query the PMP database five separate times using different search parameters for each query, to access Paddock's confidential patient information, and to obtain patient utilization reports detailing Paddock's prescription-controlled substance utilization history.

The fourth search, conducted on October 3, 2017, at 10:18 a.m., yielded specific prescription information regarding two prescriptions for Paddock filled at Evergreen Drugs in Henderson, Nevada in 2016, and at a Walgreens pharmacy in Reno, Nevada, in 2017.

On October 3, 2017 at 9 p.m., the Las Vegas Review-Journal published an article by reporter Paul Harasim. That article purported to include Paddock's confidential patient information, including information about the two prescriptions, which the reporter attributed to and obtained from the PMP.

The Las Vegas Review-Journal updated the article on October 4, 2017, at 10:00 a.m. to reference specific prescription data and prescriber information related to Paddock from June 7, 2016, and June 21, 2017.

Respondent's PMP account is the only possible source for the details in the Las Vegas Review-Journal that are attributed to the PMP, because only the fourth search from his PMP account corresponds to the dates and time frames specified in the article.

On or about November 8, 2017, Respondent through his counsel, Jacob L. Hafter, Esq., filed an Amended Declaration with the Eighth Judicial District Court of Clark County, Nevada, in Case No. A-17-762877-W, in which Respondent admits to directing his office staff to use his PMP account to query Paddock's confidential patient information and to obtain patient utilization reports on October 2, 2017, and again on October 3, 2017. In his amended Declaration, Respondent also admits to routinely allowing his staff to use his PMP account to query the PMP on his behalf."

24 25

27

26

28

The Nevada Pharmacy Board Order concluded that: "By accessing or directing his staff to access Paddock's confidential data in the PMP database, when Paddock was deceased and never his patient, and by obtaining Paddock's patient utilization report, Respondent performed his duties as a holder of a Nevada Controlled Substances Registration in an incompetent, unskillful or negligent manner and engaged in unprofessional conduct or conduct contrary to the public interest."

Respondent prescribed and dispensed Phentermine 37.5 mg tablets to himself for his own personal, non-emergency use on December 1, 2014, March 27, 2015, July 27, 2015, and October 19, 2015. Respondent also prescribed and dispensed Phendimetrazine 35 mg tablets to himself for his own personal, non-emergency use on June 29, 2015.

- 10. As a result of Respondent's unprofessional conduct, the Nevada State Board of Medical Examiners disciplined Respondent by placing him on probation for two years and subject to various terms and conditions, including: (1) Successful completion of PACE program; (2) paying investigative and prosecutorial costs and expenses of \$7,168.05; (3) completion of 22 hours of continuing medical education related to best practices of prescribing controlled substances; and (4) paying a fine of \$4,000.00.
- 11. Respondent's conduct and the actions of the Nevada State Board of Medical Examiners, as set forth in paragraphs 8 through 10 above, constitute unprofessional conduct within the meaning of 2305 and conduct subject to discipline within the meaning of section 141(a). The Nevada State Board of Medical Examiners' Order is attached as Exhibit B.
